GOALS

The goal of these courses includes:

1. Meeting the needs identified in the IPP.
2. Encourage the development of additional trained staff in the various courses.

L-0105 Public Information Officer –

This course introduces participants to what the Public Information Officer (PIO) does in emergency management, along with basic information about the Integrated Public Alert and Warning System (IPAWS). The PIO topics covered include the role of the PIO; communication tools and resources encompassing social media; effective communication; preparing the community through outreach and other means; and communication in an incident. The IPAWS topics covered include what the system is and does, preparing alert and warning messages, and writing common alerting protocol messages. This is a 3-day classroom course that gives participants time to perform activities and exercises to reinforce the knowledge and build basic skills.

G-557 Rapid Needs Assessment –

This course was formerly a 4-8-hour course. The ability to perform a rapid assessment accurately and within the first few hours after an incident is critical to providing response for life threatening and imminent hazards. Coordinated and timely assessments permit local government to prioritize response activities, allocate scarce resources and request mutual aid and State & Federal assistance. Classroom activities facilitated exercises and instructor lead group discussion are utilized in this course to provide participants with the skills to perform assessment. Communities can use the Resource Guide and Facilitator's Guide when developing the plan and procedures for rapidly and efficiently collecting disaster intelligence immediately following a disaster. This intelligence is used to prioritize response activities, allocate available resources, and specifically request resources from other sources to save and sustain lives.

L-950 NIMS ICS All-Hazards Incident Commander –

This course is designed to provide local and state-level emergency responders with a robust understanding of the duties, responsibilities, and capabilities of an effective Incident Commander (IC) on an All-Hazards Incident Management Team (AHIMT). These responsibilities fall into two categories: 1) responding to the incident and the command needs of the incident, and 2) effectively fulfilling the position responsibilities of an Incident Commander on an All-Hazards IMT.

L-984 Strike Team/Task Force –

The course addresses the roles and responsibilities appropriate to a Task Force/Strike team Leader operating on concert with a local or state-level AH IMT. These responsibilities fall into two categories: (1) responding to the incident and the command needs of the incident, and (2) effectively fulfilling the position responsibilities of a Task Force/Strike Team Leader in conjunction with an AH IMT. This is an all-hazards, instructor-led course that facilitates learning through discussion, lecture, and active participation in multiple exercise scenarios
