BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure EnVision Application Subscription from

Organizational Performance Systems, Inc. without conducting a competitive solicitation process for the following reason(s).

The County faces significant challenges in providing comprehensive, accessible, and coordinated services to its low-income families and veterans. The complexity and fragmentation of these services create barriers that prevent families from accessing the full range of support they need. To address this, the County seeks a technology-enabled solution that consolidates resources and services, streamlines access, and empowers individuals to rise from their current circumstances. Therefore, the Community and Veterans Services Department wishes to contract with Organizational Performance Systems, Inc. for the EnVision application subscription service.

The EnVision platform offers a comprehensive, integrated, and user-centered solution that aligns with the County's goals of improving service access, promoting self-sufficiency, and empowering low-income families and veterans. Developed in partnership with HUD and the Census Bureau and tailored through The Opportunity Project, EnVision benefits from a unique collaboration that enhances its capacity to deliver impactful solutions. The accolades it has received further underscore its distinct ability to meet the specialized needs of the target population and stakeholders effectively.

Any company that believes they can provide this good or service must provide, in writing, convincing technical data sufficient to support their position to the Manatee County Procurement Division at purchasing@mymanatee.org no later than November 14, 2024 for evaluation and consideration.
