

MANATEE COUNTY

November 17, 2011

TO: ALL INTERESTED PROPOSERS

REFERENCE: REQUEST FOR PROPOSAL #11-3208DW / PBX System and Voice Application Maintenance and Support

ADDENDUM No. 2

Proposers are hereby notified that this Addendum shall be acknowledged by them within their proposal and shall be made a part of the above named Proposal and Contract Documents.

The following items are issued to add to, modify, and clarify the Proposal and/or Contract Documents. These items shall have the same force and effect as the original Proposal and /or Contract Documents. Proposals are to be submitted on the specified date and shall conform to the additions and revisions listed herein.

Q: Are copies of the configuration disks for the SV85000 and 2400 systems available?

A: Yes, see attached files.

Q: Is NEC Software Assurance (SWA) and / or Extended System Protection Plan (ESPP) in place for any of the SV8500 or SV8100 systems? SWA is still in place for several systems.

A: See Attached List.

Q: Is AVST XpressCare in place for any of the AVST Voice Mail systems?

A: XpressCare is in place for the Administration AVST 8.0 platform.

Q: Is NEC SWA in place on the UCB ACD / IVR systems?

A: No.

Q: Is Manatee County looking to maintain or re-establish SWA and XpressCare on the systems it is available on?

A: Yes. The County will consider an optional price to maintain or re-establish SWA and XpressCare on current production systems SV8100, SV8500, Q-Master, UCB, IVR and AVST CallXpress 8.0.

Q: Can the NEC Location IDs be provided on the SV8500 and SV8100 systems?

A: See Attached.

Q: How many Q-Master / UCB servers are located at the Public Safety Center location (210147th Ter. E Bradenton, FL 34205) and which PBXs are they connected to?

A: The Q-Master server is connected to the Public Safety PBX at the same location. The UCB/IVR servers are located at the Public Safety Complex, however, they are connected to the Utilities SV8500.

-continued-

Q: The bay face layout for the County Administration Building (ID 1) shows an SV8500 with (8) chassis. Does this bay face layout include spare hardware for this site or is there only (3) chassis at this location? This question is raised because chassis 3 – 7 do not contain PH- PC36 cards, chassis 0 contains SPH-SW10 cards and the physical station ports listed in Attachment “D” do not match the number of station ports in the system.

A: See attached revised bayface layout. .

Q: The bay face layout for the Historic Courthouse (ID 3) shows an IPX 2400 system with (5) chassis. Does this bay face layout include spare hardware for this site or is there only (3) chassis at this location? This question is raised because chassis 3 – 4 do not contain PH-PC36 cards, chassis 0 contains SPH-SW10 cards and the physical station ports listed in Attachment “D” do not match the number of station ports in the system.

A: See attached revised bayface layout.

Q: Should batteries and keysets be included in the maintenance coverage?

A: No.

Q: Are current rates or terms available for this contract? Please make these available if this is a renewal contract.

A: This is not a renewal and the resulting contract will be a new contract.

All other terms and conditions of the original Request For Proposal remain unchanged.

If you have submitted a proposal prior to receiving this addendum, you may request in writing that your original, sealed proposal be returned to your firm. All sealed Proposals received will be opened on the date stated.

Sincerely,

MANATEE COUNTY GOVERNMENT

Dennis W. Wallace

Procurement Contracts and Buyer Manager
