BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Iteris ClearGuide Software from Iteris, Inc. without conducting a competitive solicitation process for the following reason(s).

Manatee County requires high-resolution probe data from vehicles to measure speeds and travel times in real time for all the County's roads and highways without investing in new hardware. Using this data, the County can identify traffic anomalies, measure traffic speeds, and set benchmarks for travel times. This information will help the County prioritize short- and long-term solutions to traffic problems. ClearGuide software has been used successfully by many local agencies in Florida and beyond. The Iteris ClearGuide software is unique and proprietary, and Iteris, Inc. is the sole source for the software. ClearGuide software seamlessly integrates mobility and safety reports into a single interface, providing quick response times and ease of use.

Any company that believes they can provide this good or service must provide, in writing, convincing technical data sufficient to support their position to the Manatee County Procurement Division at purchasing@mymanatee.org no later than February 14, 2024.
