Florida Dirt Source LLC's unit price of \$6.00 per cubic yard includes the cost of the material and hauling to the landfill for the contract term. Florida Dirt Source LLC's stated source selection of material is located at 9801 289th Street East in Myakka City, Florida.

After bid analysis and testing of the dirt samples from their proposed source location, the Solid Waste Division of the Utilities Department provided their recommendation for award to Florida Dirt Source, LLC, for an estimated total bid amount of \$4,188,000.00.

LAG Hauling Inc.'s bid has been deemed non responsive as it contained a unit price for the supply of the cover dirt, but did not include the transporting of the cover dirt from the source location to the landfill which was a requirement of the bid documents.

Sitework Supplier Inc.'s bid is deemed non responsive as it contained a unit price for a unit of measure other than what was required by and called for in the Bid documents. Furthermore, the extensions in the bid totals did not substantiate the explanation for the variation in the unit of measure the bidder used.
