BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Eureka Water Probes from Solinst Eureka, LLC without conducting a competitive solicitation process for the following reason(s):

The Natural Resources Department requires professional water quality measurement instrumentation, which must include a Chlorophyll sensor. The Eureka Water Probes are unique in their technical characteristics to measure the Chlorophyll. These probes are compatible with the existing telemetry system used by the County.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than April 24, 2025 for evaluation and consideration.
