BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Xylem V-Turbine Pump with Installation from Hudson Pump and Equipment without conducting a competitive solicitation process for the following reason(s):

Xylem Pumps are the direct replacement of the current pumps, which have exceeded their service life. The pumps are critical to the operation of the Water Treatment Plant (WTP), which supplies potable water to the public. Replacing these pumps is essential to maintaining reliable water distribution and system efficiency.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than May 9, 2025 for evaluation and consideration.
