BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure SR 789 Water Main Improvements from AF USA Construction Corp. without conducting a competitive solicitation process for the following reason(s):

The County has worked with FDOT to identify utility conflicts in the project area. Because the contractor is already performing FDOT's work, they are aware of the County's required work with cost savings and coordination efficiencies. The general contractor has all related experiences, licenses, and insurance for underground utility work. This will increase safety, decrease project site conflicts or line breaks due to construction methods, and eliminate the possibility of fines to the County for potential delays by having to obtain a separate contractor to perform the county-directed work.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than May 3, 2021, for evaluation and consideration.
