July 17, 2017

TO: All Interested Quoters

SUBJECT: Request for Quotation (RFQ) 17-1796BLS
Deionization Water Services

ADDENDUM 1

Quoters are hereby notified that this Addendum shall be acknowledged on page Quotation Form-1 of the Quote Form and made a part of the above named quoting and contract documents. Quotes submitted without acknowledgment of the Addendum will be considered incomplete.

The following items are issued to add to, modify, and clarify the quotation and contract documents. These items shall have the same force and effect as the original quoting and contract documents, and cost involved shall be included in the quote prices. Quotations to be submitted on the specified quote date, shall conform to the additions and revisions listed herein.

The following questions have been presented by potential quoters:

1. QUESTION: There is a TOC requirement on the DI water. The DI resin will not reduce TOC. The only way to reduce TOC in the incoming water is with a TOC destruct UV, extended contact time with carbon, or with reverse osmosis filtration. Is the County aware and will they accept a DI system as requested in the RFQ?

RESPONSE: The current system uses a granular activated carbon tank that removes TOC. The County is aware of the limitation cited and prefers the system configuration

2. QUESTION: The water quality must be continually monitored using a conductivity or resistivity meter. Is there an existing meter at each site or does awarded quoter provide this meter as part of the quoted cost?

RESPONSE: The awarded quoter shall supply the in-line conductivity meters.

3. QUESTION: Is a bid bond required for this project?

RESPONSE: A bid bond is not required.

Quotations will be received at Manatee County Procurement, 1112 Manatee Avenue West, Suite 803, Bradenton, Florida 34205 until July 21, 2017 at 3:00pm.

Sincerely,

Chris Daley, CPPO, CPPB
Buyer Manager
