**BACKGROUND/DISCUSSION**

Manatee County Procurement Division has completed a due diligence review and intends to procure a model 750 I/C-0 closed loop industrial wash-water recycling system, including installation, start-up, and training from ESD Waste2Water, Inc. without conducting a competitive solicitation process for the following reason(s):

This system is an exact model replacement for the one purchased in April 2009 that was built into the wall. The Fleet Division requires OEM installation and service to maintain compliance with environmental regulations concerning wash water and runoff. Internet research confirms ESD Waste2Water is the sole provider for this system.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at [purchasing@mymanatee.org](mailto:purchasing@mymanatee.org) no later than November 8, 2022, for evaluation and consideration.
