**ADDENDUM #1**

**Question 1:** A site visit to the Langdon Hall address found that the existing meter is already above ground. It looks as though it could use a good coat of paint, but that is all I could see wrong. Do I not understand the scope of this RFQ #14-0502-OV? If necessary I can send you the pictures I took. Please clarify.

**Response 1:** Yes, there are existing above ground meters on this site. This project is to replace / upgrade to current standards and locate all three (3) meters adjacent to each other.'
