BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure a Yaskawa VFD 350 HP high service pump located at the Southwest Water Reclamation Facility from Icon Technologies without conducting a competitive solicitation process for the following reason(s):

The Variable Frequency Drives (VFD) located at the Southwest Water Reclamation Facility High Service Pump Station are nearing the end of their lifecycle. To standardize the VFD programming and control interface across Wastewater Plants, Manatee County intends to purchase a Yaskawa VFD replacement. Icon Technologies is the exclusive sales and service provider for the Yaskawa Model VFDs in the State of Florida.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than March 14, 2024 for evaluation and consideration.
