

MANATEE COUNTY FLORIDA

September 29, 2010

TO: All Interested Bidders

SUBJECT: **Invitation for Bid # 10-3263-DS**
2010 Lift Station Emergency Generators – Group 2
(Project No. various)

ADDENDUM # 1

Bidders are hereby notified that this Addendum shall be acknowledged on pages 00300-1 of the Bid Form and made a part of the above named bidding and contract documents. Bids submitted without acknowledgement of the Addendum will be considered incomplete.

The following items are issued to add to, modify, and clarify the bid and contract documents. These items shall have the same force and effect as the original bidding and contract documents, and cost involved shall be included in the bid prices. Bids to be submitted on the specified bid date, shall conform to the additions and revisions listed herein.

The deadline for clarification of questions is **October 12, 2010 at 2:00 pm.** This deadline has been established to maintain fair treatment of all potential bidders, while maintaining the expedited nature of the Economic Stimulus that the contracting of this work may achieve. Questions received after this date and time shall not be considered.

A public records request was made for the engineer's estimate for this project.

- Attached is a copy of the engineer's estimate letter (1) page dated September 10, 2010. It is important to note that Manatee County Government is currently receiving competitive bids which are up to 50% lower than engineer's estimates. (1 page)**

A clarification regarding the Manatee County Building Department's requirements pertaining to the poured-in-place concrete slab.

The Manatee County Building Department will require the contractor to submit a plan for each poured-in-place concrete slab being installed. The Building Department will accept a slab designed by the manufacturer for their respective generator, provided the back-up information accompanies each plan. If the manufacturer does not provide a slab design, then the contractor shall submit a slab design that is signed and sealed by a Professional Engineer and meets the Florida Building Code.

The Building Department has indicated that the electrical contractor under their permit may pour the concrete slab as incidental work. This would preclude the necessity of the electrical contractor having to hiring a general contractor.
