BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Cummins engines parts and repairs from Cummins Power Souty without conducting a competitive solicitation process for the following reason(s):

The Public Works Department has need of OEM parts and repairs for Cummins engines. The County has established a standard of use to the Cummins engines as they are part of the powertrain for many County vehicles. Cummins Power South is the only OEM factory authorized supplier for Cummins engines. The Public Works Department and Procurement have determined that this equipment, service and parts sourced from Cummins Power South is in the County's best interest.

Based upon these and other factors, the County plans to standardize the above referenced product.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than March 19, 2021 for evaluation and consideration.
