BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Seepex equipment and services to include removing and installing chlorine pump skids and replacing electric and controls onto new skids from Hudson Pump and Equipment without conducting a competitive solicitation process for the following reason(s):

Hudson Pump and Equipment is the exclusive representative for Seepex pumps, parts, and chemical skids for the municipal market in the State of Florida.

The County has standardized on Seepex equipment at the three water reclamation facilities due to lower maintenance costs than other brands.

It would not be cost effective to change piping modifications and pump related inventory.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than April 24, 2020 for evaluation and consideration.
