RFQ No. 21-R077666CD is amended as set forth herein. Responses to questions posed by prospective proposers are provided below. This addendum is hereby incorporated in and made a part of RFQ No. 21-R077666CD.

QUESTIONS AND RESPONSES:

Q1. Tab 7, Item 3 requests a “proposed schedule of values to establish the GMP.” Is the County requesting a *sample* schedule of values for the preconstruction phase or a *sample* schedule of values for the anticipated GMP itself?

R1. The intent of the Tab 7, item 3 is for the Proposer to provide written overview of CMAR concepts and approach for management of costs for the project. The County is requesting Proposer to provide an explanation and demonstration of how the CMAR will use the open book procurement process to develop and determine GMP costs. In addition, this section should also include an explanation of how the CMAR will develop schedule of values with the County to create work breakdown structure to manage costs for equipment and work packages, track completion of work, and set contingency.

Q2. Tab 8, Item 12 requests us to provide a list of construction projects awarded to us by the County, including dollar value of the design work. Please confirm that we should include dollar value of the construction work instead of dollar value of the design work.

R2. Confirmed, Proposer’s should include the value of construction projects awarded instead of the dollar value of design work.

Q3. Would the County be able to provide the preliminary design engineering reports and drawings for the Manatee County Southeast WRF project?

R3. There are no design reports or drawings available at this time for the SEWRF Capacity Improvements project.
