**From:** Wayne R. Troxler, Project Engineer Supervisor   
**Date:** March 5, 2009  
**Subject:** Addendum #3, Response to Information Conference Questions of 03/03/09

The following are the responses to the proposee questions that were asked at the information conference:

1. A question was asked regarding the proposal line item form, page 21, items #59AA through 65AA: Is a proposee required to submit a proposal for all of the types of spray-on liners for wet wells and manholes? Each of the allowed types of spray-on liners is listed individually. A valid proposal need only include a minimum of 1 of the types of spray-on liners, not all 7 types. (Other types of spray-on liners, such as spray-on fiberglass, will not be entertained in this proposal).
2. For re-emphasis, although it is covered in Addendum #1: There are 4 "divisions" within the proposal: Misc. Work, U/G Utilities, LS Upgrades, and Emergency Generators. Proposees need to complete all line items within any "division" that they intend to propose on in order to be a valid proposal, with the one exception listed above. They do not have to propose on more than one "division" unless they choose to, but they may propose on as many as they want.
