BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Miovision Traffop Software from Miovision Technologies Incorporated without conducting a competitive solicitation process for the following reason(s):

Miovision Traffop software has unique capabilities and technologies that distinguish it from other automated signal performance software programs and offer specific benefits to the County. These features include highly interactive visualization charts facilitating proactive comprehension and summarization of signal performance, a queue length predictive model that uses unique algorithms to forecast queue lengths at intersections, and a data fusion capability that integrates multiple data sources for more consistent and accurate information. Additionally, Miovision Traffop software provides actionable insights for a focused, proactive approach to signal timing and features an intuitive user interface utilizing Google's Material Design.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than August 6, 2024 for evaluation and consideration.
