### BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Environmental Products Group Camera Truck Repair to Asset #61920 from Environmental Products Group, Inc. without conducting a competitive solicitation process for the following reason(s):

The LF2200 Locator Wand is installed on multiple assets to identify underground sewage/stormwater pipe blockages and to mark spots okay for digging. It is a statutory requirement to provide these services to maintain public health, safety, and welfare to the citizens of the community. Environmental Products Group, Inc. is the only supplier of the Envirosight Equipment in Florida. Using another vendor to make repairs would void warranties.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at [purchasing@mymanatee.org](mailto:purchasing@mymanatee.org) no later than July 2, 2025 for evaluation and consideration.
