QUESTION: We recommend disinfecting the buses. We offer 3 options. Please choose one:

- 1- Ozone Treatment - machine placed in vehicle for a minimum of 5-8 Hours to eliminate odor and mildew/mold etc.
- 2- Chlorine Dioxide treatment - two part chemical mixed to release gas to eliminate odor and mildew/mold etc for 2-4 hours.
- 3- Aerosol Disinfectant Spray - sprayed on all areas after the detail service has been performed

RESPONSE: The County requires disinfection as part of the intensive bus detailing specifications. For clarification purposes, the County requires a chlorine dioxide treatment to be used for each vehicle in the County's bus fleet.
