BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Internet Service Installation from Charter Commincations without conducting a competitive solicitation process for the following reason(s):

The County made commitments to the State of Florida (FDEP) to build and equip the Piney Point Injection Well and Treatment Plant. Lacking internet connectivity could jeopardize continuous operations and the ability to maintain timetables needed for the County's role in resolving this regional environmental concern. Charter Communications is the only viable local provider in the geographic area available for a hardwired connection.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than May 23, 2024 for evaluation and consideration.
