Such Bidder will be disqualified from consideration for this IFB and may be disqualified from submitting a response on future solicitation opportunities with the County.

A.12 UNBALANCED BIDDING

County recognizes that large and/or complex projects will often result in a variety of methods, sources, and prices. County reserves the right to deem any presumptive unbalanced Bid where the Bidder is unable to demonstrate the validity and/or necessity of the unbalanced unit costs as non-responsive.

The sample shall be considered representative of the lot.

The County reserves the right to subject samples of the sodium hypochlorite to quick analyses/testing to ensure that it meets basic conditions of the specification with respect to specific gravity, weight percent of sodium hypochlorite, sodium hydroxide, and suspended solids. Any lot tested by the County that fails to comply with the specifications shall constitute grounds for rejection of that lot.

No payment shall be made for sodium hypochlorite that is rejected by the County upon completion of the testing. The Contractor or its subcontractors shall allow 45 minutes for this testing to be completed before unloading the shipment. If testing cannot be completed within the 45-minute period, the County shall allow the Contractor to unload the shipment.

- v. Sampling and Test of Shipment After Unloading: The County reserves the right to subject samples of the sodium hypochlorite to complete analyses to ensure that it meets EPA specifications, AWWA B300-04 specifications, and the supplemental specifications included with the Agreement. The Contractor shall supply the sample container and the driver shall collect the sample from the tank truck. This sample shall be given to the County at the time of delivery and the County shall forward the sample to an approved outside testing agency. As a result of this testing, any failure to comply with the specifications shall constitute grounds for cancellation of the agreement for sodium hypochlorite. G. COAGULANT AID (SURFACE WATER)

The following chemical specifications are for use as an aid in the coagulation of potable drinking water, **more specifically as a chemical flocculant**. Samples were requested from interested contractors and bid ratios for the various products supplied were determined by performance testing. Some products were eliminated for poor performance in the competitive range. The bid ratios for polymers were prepared using the following experimental design:

1. Basin A-1 evaluated at 30 MGD -Mixing routine:

RPM	TIME
142	0'32"
60	3'09"
45	5'5"
30	8'23"
10	11'0"

2. Samples were collected at 0, 2, and 5 minutes after mixing was stopped and measured for turbidity.

Two rounds of testing were performed (April and September 2018) to capture different surface water qualities. The dose required to achieve a turbidity of 3.0 NTU after five (5) minutes of settling was calculated for each polymer tested. Performance factors were determined for each polymer by dividing this dose by the dose required for the best performing polymer (i.e. lowest dose). The performance factors for each round of testing were then averaged to obtain the following bid ratio table:

<u>Company</u>	<u>Product</u>	<u>Bid Ratio</u>
Polydyne	Clarifloc N-3300P	1.000
Sterling	Magnafloc LT20	1.081
KED Group	PN100PWG	1.121
Henwil	HW-SE0300P	2.275

Price per pound shall be multiplied by this bid ratio in order to determine the actual cost for equal performance. Only those products that are listed in the table above, which have had bid ratios determined by this procedure, are allowed under this Agreement. Copies of the polymer evaluation will be made available to Contractor through the Manatee County Utilities Department.

3. **Cause for Rejection:** Polymers evaluated in the past have been evaluated under specific water quality conditions. Whereas water quality changes during the year, the effectiveness of a specific polymer may change, resulting in unsatisfactory performance. - J. **TASTE AND ODOR CONTROL** - The following chemical specifications are for use in controlling and removing causative agents responsible for producing taste and odors in potable water.

Chemical

- Powdered Activated Carbon
- Sodium Percarbonate Algaecide

1. **POWDERED ACTIVATED CARBON**

Shall be provided in accordance with AWWA Standard **B600-10** or most current revision except as follows:

Samples were requested of interested contractors and bid ratios for the various products supplied were determined by performance testing. Bid ratios for carbon were prepared using the following experimental design:

A. Basin B evaluated at 21 MGD

B. Mixing routine:

RPM	TIME	
142	0'	PAC addition
142	3' 0"	Alum addition and pH adjustment
120	3' 28"	
100	3' 44"	
80	7' 41"	Polymer addition
40	10' 58"	
20	14' 53"	
0	20' 0"	
0	30' 0"	Samples collected

Samples collected at 30' and analyzed by solid phase microextraction gas chromatography mass spectrometry (SPME-GCMS) for geosmin and 2-methylisoborneol (MIB).

Five (5) geosmin and four (4) MIB scenarios, representing typical required percent odorant removals from previous T&O seasons, were used in determining the bid table ratio. These scenarios required geosmin removals of 11.4 percent, 30.8 percent, 48.6 percent, 69.7 percent, and 90.8 percent. Required removals for MIB were 13.2 percent, 36.9 percent, 58.9 percent, and 86.1 percent. The dose of each carbon needed to achieve these removals was calculated from data produced in the above experimental design (rounded up to the next 5 ppm. A performance factor was determined for each scenario and carbon and each odorant by dividing the operational carbon dose required for each carbon by the operational dose required for the best performing carbon (i.e. lowest dose) at each scenario. The total performance factor for each carbon / odorant combination was then determined by taking a weighted average of the performance factors from the various scenarios. The final performance factor for a carbon for each round of testing was then calculated as the average of the performance factors for geosmin and MIB. Performance factors were determined twice (April and September 2018) to capture different surface water qualities. The performance factors from April and September were then averaged to obtain the following bid ratio table:

<u>Company</u>	<u>Product</u>	<u>Bid Ratio</u>
• Jacobi	AquaSorb CB1-MW	1.000
• Jacobi	AquaSorb LP39	1.005
• Oxbow	OxPure AQM 325X	1.019
• Cabot Norit	Hydrodarco LW M2361	1.112
• Standard Purification	Watercarb 1000	1.421
• Standard Purification	Watercarb EXP	1.577
• Oxbow	OxPure AQM 325Y	1.602
• Cabot Norit	Hydrodarco EX M2364	1.651
• CarbPure Thatcher	CarbPure 800	2.165

Several other PACs were tested, but their performance did not qualify them as appropriate for use at the County and they were not processed through the complete testing. Any PAC which required more than 150 ppm (the maximum dose which the

County can reliably feed at typical production rates) to reach any of the required removals from the various scenarios was rejected. The bid price per ton is to be multiplied by this bid ratio in order to determine the actual cost for equal performance. Only those products that are listed in the table above, which have had bid ratios determined by this procedure, are allowed to submit bids in response to this solicitation. Upon commencement of the agreement, the County shall perform jar testing on the delivered PAC to generate dose removal curves for both MIB and geosmin. If it is determined that the bulk PAC delivered differs substantially in performance and specifications from the sample submitted for testing to generate the performance factors listed above, the County reserves the right to procure the product from the next lowest responsive, responsible Contractor or to solicit new pricing.

The AWWA **B600-05** specifications shall apply except as follows:

For more information on this process, please refer to United States Citizenship and Immigration Service site at: <http://www.uscis.gov/>.

This can be done in one of two ways: (1) an endorsement can be issued that specifically lists “Manatee County, a Political Subdivision of the State of Florida,” as Additional Insured; or, (2) an endorsement can be issued that states that all Certificate Holders are Additional Insured with respect to the policy.

All coverages for agents, representatives, and subcontractors shall be subject to all of the requirements set forth to the procurement representative.
 - i. All required insurance policies must be written with a carrier having a minimum A.M. Best rating of A- FSC VII or better. In addition, the COUNTY has the right to review the SUPPLIER's deductible or self-insured retention and to require that it be reduced or eliminated.
- III.** SUPPLIER understands and agrees that the stipulated limits of coverage listed herein in this insurance section shall not be construed as a limitation of any potential liability to the COUNTY, or to others, and the COUNTY'S failure to request evidence of this insurance coverage shall not be construed as a waiver of SUPPLIER'S obligation to provide and maintain the insurance coverage specified.
- IV.** The enclosed Hold Harmless Agreement shall be signed by the SUPPLIER and shall become a part of the contract.

V. SUPPLIER understands and agrees that the COUNTY does not waive its immunity and nothing herein shall be interpreted as a waiver of the COUNTY'S rights, including the limitation of waiver of immunity, as set forth in Florida Statutes 768.28, or any other statutes, and the COUNTY expressly reserves these rights to the full extent allowed by law.

VI. No award shall be made until the Procurement Division has received the Certificate of Insurance and Hold Harmless Agreement in accordance with this section.

VII. BONDING REQUIREMENTS

Bid Bond/Certified Check. By submitting a proposal, the SUPPLIER agrees should its proposal be accepted, **to execute the form of Agreement and present the same to COUNTY for approval within ten (10) calendar days after notice of intent to award.** The SUPPLIER further agrees that failure to execute and deliver said form of Agreement **within ten (10) calendar days** will result in damages to COUNTY and as guarantee of payment of same a bid bond/certified check shall be enclosed within the submitted sealed proposal in the amount of five (5%) percent of the total amount of the proposal. The SUPPLIER further agrees that in case the SUPPLIER fails to enter into an Agreement, as prescribed by COUNTY, the bid bond/certified check accompanying the proposal shall be forfeited to COUNTY as agreed liquidated damages. If COUNTY enters into an agreement with a SUPPLIER, or if COUNTY rejects any and/or all proposals, accompanying bond will be promptly returned.

Payment and Performance Bonds. Prior to commencing work, the SUPPLIER shall obtain, for the benefit of and directed to COUNTY, a Payment and Performance Bond satisfying the requirements of Section 255.05, Florida Statutes, covering the faithful performance by the SUPPLIER of its obligation under the Contract Documents, including but not limited to the construction of the project on the project site and the payment and obligations arising thereunder, including all payments to Subcontractors, laborers, and materialmen. The surety selected by the SUPPLIER to provide the Payment and Performance Bond shall be approved by COUNTY prior to issuance of such Bond, which approval shall not be unreasonably withheld or delayed provided that surety is rated A- or better by Best's Key Guide, latest edition.

Failure to provide the required bonds on the prescribed form may result in SUPPLIER being deemed nonresponsive. Bonds must be in the form prescribed in Section 255.05, Florida Statutes, and must not contain notice, demand or other terms and conditions, including informal pre-claim meetings, not provided for in Section 255.05, Florida Statutes.

Bonds shall be in an amount equal to 100% of the contract price issued by a duly authorized and nationally recognized surety company, authorized to do business in the State of Florida, satisfactory to COUNTY. Surety shall be rated as "A-" or better by Best's Key Guide, latest edition. The attorney-in-fact who signs the bonds must file with the bonds, a certificate and effective dated copy of power-of-attorney. Payment and Performance Bonds shall be issued to "Manatee County, a political subdivision of the State of Florida", **within ten (10) calendar days after issuance of notice of intent to award.**

In addition, pursuant to Section 255.05(1)(b), Florida Statutes, prior to commencing work, the SUPPLIER shall be responsible and bear all costs associated to record the Payment and Performance Bond with the Manatee County Clerk of the Circuit Court. A certified copy of said recording shall be furnished to the Procurement Division upon filing. Pursuant to Section 255.05(1)(b), Florida Statutes, COUNTY will make no payment to the SUPPLIER until the SUPPLIER has complied with this paragraph.

Furnishing Payment and Performance Bonds shall be requisite to execution of an Agreement with COUNTY. Said Payment and Performance Bonds will remain in force for the duration of this Agreement with the premiums paid by the SUPPLIER. Failure of the SUPPLIER to execute such Agreement and to supply the required bonds shall be just cause for cancellation of the award. COUNTY may then contract with the next lowest, responsive and responsible SUPPLIER or re-advertise this RFP.

Failure of COUNTY at any time to require performance by the SUPPLIER of any provisions set out in the resulting Agreement will in no way affect the right of COUNTY, thereafter, to enforce those provisions.
