BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure rotary actuators with hardware from Beck Electric Actuators without conducting a competitive solicitation process for the following reason(s):

Beck actuators have a fifty year life expectancy, proven reliability in extreme conditions, zero maintenance requirement, simple and easy to repair controls, parts compatibility over the product line, ease of repair, overnight availability of parts, and the low power requirements of the actuators. The actuators are compatible with all major valves, and Beck will create a mounting hardware kit if need be for uncommon valve configurations. After further research, there are no other actuators that offer the same features as the Beck actuators.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than August 8, 2024 for evaluation and consideration.
