Solicitation Addendum

Addendum No.: 1

Solicitation No.: 18-R067950BLS

Project No.:

Solicitation Title: Lift Station Landscape Maintenance Services

Addendum Date: April 19, 2018

Procurement Contact: Bonnie Sietman

RFO 18-R067950BLS IS AMENDED AS SET FORTH HEREIN. RESPONSES TO QUESTIONS POSED BY PROSPECTIVE OFFERORS ARE PROVIDED BELOW. THIS ADDENDUM IS HEREBY INCORPORATED IN AND MADE A PART OF RFO 18-R067950BLS.

QUESTIONS AND RESPONSES:

Q1. What was the previous bid tabulation?

R1. Bid tabulation for RFQ 14-3283CD, groups F, G and H attached.

Q2. Who is currently maintaining the sites and for how long?

R2. Central Florida Landscaping Inc. is currently providing the lift station landscape maintenance. Service started September 28, 2016.

Q3. What is the budget for the service?

R3. The annual estimated budget is \$30-\$40K.

Q4. The notice to offerors does not match the bid tabulation sheet? There are more sites listed as numbered in the general description versus what the actual addresses provide?

R4. The bid form indicates:

Group A – North County – 43 sites

Group B – East County – 56 sites

Group C – West County – 42 sites

Q5. Fertilizer is mentioned; however, a formulation is not listed?

R5. Reference B.10, B.1: Authorization for Chemical Maintenance Activities –
Prior to the start of any maintenance activities requiring the use of chemical agents such as fertilizers, insecticides, or herbicides, the Contractor shall obtain approval from the CCM (County Contract Manager) for the type, rate of application, method of application, and areas/locations of the proposed application.

Q6. Mulching: some of the areas have no mulch. The area we have mulched had nothing, it took a significant amount. Are we bidding a set amount to be applied yearly or a bid to bring it up to par, then a lower application each year? What product are we applying? Do we need to match the mulch of an HOA?

R6. Reference B.10, D.1.b: Turf Maintenance, Mulching –
Furnish and install same type mulch for existing areas as established. All mulched areas are to be replenished once per year (between November and February). No mulch will be installed on the tree trunk, it shall be installed a minimum of six (6) inches away from the trunk to prevent trunk damage. The CCM may direct additional installation at spot locations as necessary to maintain an acceptable appearance.

Q7. Aquatic control is mentioned in the description, what are the perimeters of aquatic control?

R7. Aquatic control will not be needed in this agreement.

Q8. Tree height: what tree height shall be maintained?

R8. Recommendation by the County is 12' due to the height of large trucks and heavy equipment.

Q9. Is clean up due to an emergency or hurricane/weather damage billed on this agreement?

R9. Emergency/hurricane/weather clean up, if in excess of normal clean up, shall be scheduled and invoiced under a separate purchase order.

Q10. Palm tree trimming: the RFO indicates trimmed and maintained, but only dead limbs removed, will there be no hurricane cuts?

R10. Palms shall be trimmed on a six-month schedule.

Q11. Map and Atlas: I was unable to locate the map only addresses on the bid tabulation sheet?

R11. The County does not have a lift station map as this time.

NOTE: Items that are ~~struck through~~ are deleted. Items that are underlined have been added. All other terms and conditions remain as stated in the <solicitation type>.

End of Addendum

INSTRUCTIONS:

Receipt of this addendum must be acknowledged as instructed in the solicitation document. Failure to acknowledge receipt of this Addendum may result in the response being deemed non-responsive.
