BACKGROUND/DISCUSSION

The Manatee County Procurement Division has completed a due diligence review and intends to procure Fecon mulching equipment parts and services from Ring Power Corporation without conducting a competitive solicitation process for the following reasons:

The Public Works Department maintains several Fecon mulching machines for chipping tree trimmings into mulch. Ring Power Corporation, Riverview, Florida, is the only Fecon OEM distributor and service center in Florida. The Public Works Department and the Procurement Division have determined that these parts sourced from Ring Power Corporation are in the County's best interest.

Any company that believes it can provide this good/service must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than January 6, 2022 for evaluation and consideration.
