BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Andritz thermal drum drying equipment from Andritz Separation, Inc. without conducting a competitive solicitation process for the following reason(s):

The Utilities Department has need of drying equipment for biosolids processing. The County has established a standard of use to the Andritz OEM line of thermal drum drying equipment. Andritz Separation, Inc. is the Original Equipment Manufacturer for these proprietary systems. There is no dealer network. The Utilities Department and Procurement have determined that this equipment and service sourced from Andritz Separation, Inc. is in the County's best interest.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than May 9, 2022 for evaluation and consideration.
