RECORDS & INSTRUCTIONS

2. Vendor shall maintain records of pests treated. Records shall include dates of monitoring or scouting. Vendor shall identify types of pests for treatment (e.g. roach or ant is insufficient; what type of roach or ant will directly affect treatment method). Treatment method for each pest shall be identified (e.g. gel bait, crack/crevice treatment, insecticide used).

3. All records shall be furnished to the County upon request.
4. A Material Safety Data Sheet (MSDS) for each chemical used in treatment at a location shall be furnished to the authorized representative for that location.

INSPECTIONS BY COUNTY

1. The Manatee County Property Management Department may make unannounced inspections to any building or section of a building to ensure that insects and pests are being controlled. All deficiencies shall be noted at that time, and vendor shall be informed of same. If, within a period of one week, obvious correction of the problem areas has not been achieved, the County reserves the right to engage the services of another vendor to bring these problem areas under control and to back-charge the vendor for any charges incurred by the County in the correction process.
2. If unsatisfactory pest control persists, the County reserves the right to terminate that portion of the contract affected in order to obtain a satisfactory vendor for those premises. Vendor shall be paid for services performed from time of award to contract termination; and shall be required to reimburse Manatee County the difference between the awarded quote price and the new vendor's price.

After treating each location, vendor shall obtain a signature from the authorized County representative for that location on the delivery ticket to verify that service has been rendered. A copy of the delivery ticket shall be left with the County representative.
