**BACKGROUND/DISCUSSION**

Manatee County Procurement Division has completed a due diligence review and intends to procure an Ammonium Sulfate Tank Replacement from H2 Enviro Solutions LLC without conducting a competitive solicitation process for the following reason(s):

The vendor is locally based, have an established relationship with the County, and have access to OEM parts. The direct replacement parts save time and money. Not using OEM has multiple implications including non-operation of facility.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at [purchasing@mymanatee.org](mailto:purchasing@mymanatee.org) no later than September 27th for evaluation and consideration.
