### B.03 CLARIFICATIONS, INTERVIEWS, PRESENTATIONS, DEMONSTRATIONS

As part of the evaluation process, the evaluation committee will determine a list of those responsive and responsible Proposals that are deemed by the committee as having a reasonable probability of being selected for award (Short List). At a minimum, the evaluation committee shall conduct discussions with the Short List Proposers and may request additional information or clarification from Proposers for the purpose of further evaluation of (a) conformance to the solicitation requirements, (b) the abilities of the Proposer, and (c) understanding of the Proposal submitted. Additional information and clarification must be submitted by Proposer within the requested time-period.

Additionally, interviews, presentations or demonstrations may be conducted with Proposers as part of the evaluation process. If conducted, the Short List Proposers will be invited to meet with the committee. The information gained from these interviews, presentations, or demonstrations will be part of the committee's consideration in making a recommendation for award. Therefore, Proposers should make arrangements to attend, if invited.

The interviews, presentations and demonstrations are closed to the public to the extent permitted by law.

In the final evaluations, each evaluator will consider the information obtained from the proposals as well as the discussions and clarifications presented during the presentations. As part of the final evaluations, the initial technical evaluation scores for each short-listed firm, in each of the evaluation criterion, will be discussed by the evaluation committee and are subject to change.

#### **B.04 RECOMMENDATION FOR NEGOTIATION**

The evaluation committee will determine from the responses to this RFQ and subsequent investigations, the Proposer(s) who best meets the County's requirements. Upon completion of the technical evaluations, the evaluation committee will make a recommendation as to the Proposer(s) which the County should enter into negotiations, if any. The County will notice the Intent to Negotiate, in the same manner the original Request for Qualifications document was noticed prior to commencing negotiations.

Upon approval to commence negotiations, the recommended Proposer(s) shall submit one original hard copy and one electronic copy on a CD or USB flash drive of its pricing proposal. The pricing information should show a categorical breakout of the pricing, with any alternates or options clearly identified. The pricing information shall be clear and unambiguous to facilitate evaluation of the prices submitted.

The County will conduct negotiations with the highest scoring Proposer. If the County and the highest-scored Proposer cannot reach agreement on a contract, the County reserves the right to terminate negotiations and may, at its sole discretion, begin negotiations with the next highest-scored Proposer(s). This process may continue until a contract acceptable to the County has been negotiated or all Proposals are rejected.

#### **B.05 RECOMMENDATION FOR AWARD**

Upon successful completion of negotiations, a recommendation for award to the successful Proposer(s) will be presented for approval per County ordinances, policies and procedures.

## **EXHIBIT 1, SCOPE OF SERVICES**

### **RFQ NUMBER 23-TA004947ED**

#### **1.01 BACKGROUND**

Manatee County is requesting professional engineering and consulting services to provide consultation, investigations, environmental studies, and report; design; construction phase and additional services for the Anna Maria Island Beach Restoration Project and other shorelines within Manatee County under tidal influences.

The Anna Maria Island Project is a Federal shore protection project with a 50-year lifespan. Other sections of the island have been renourished under the State of Florida (State) funding. The initial restoration was constructed between December 1992 and February 1993 as a Federal project, with the first periodic renourishment completed in June 2002. In 1991, approximately 2.3 million cubic yards of sand was placed on the beach along five (5) miles of Anna Maria Island, and approximately 1.8 million cubic yards was placed along 5.1 miles within the cities of Bradenton Beach and Holmes Beach, and .6 miles are within the city of Anna Maria. While federally authorized, the City of Anna Maria portion was not federally funded, but cost-shared with the State. In 2014, 5.1 miles were renourished along the City of Bradenton Beach and Holmes Beach as a Federal project and 1.4 miles of Cortez and Coquina Beach on the south end of Anna Maria Island were renourished with State funding. Manatee County completed the third periodic renourishment in 2014.

Between December 2013 and March 2014, the Manatee County Central Beach Nourishment Project was constructed by the U.S. Army Corps of Engineers (USACE) in the federally authorized project area. The project repaired damages from Tropical Storm Debby, which impacted the Anna Maria Island shoreline in June 2012, and added sediment to compensate for erosion since the 2005 project. Immediately following completion of the Central Beach project, Manatee County constructed the Coquina Beach Nourishment Project using the same dredging contractor in March 2014 between R-33 and R-41+305, overlapping the federal project between R-33 and R-36. In total, the beach in the Central project area gained about 973,839 cubic yards of beach fill and 100.1 feet of beach width and the beach in the Coquina Beach project area gained about 281,033 cubic yards of beach fill and 87.8 feet of beach width. The material was dredged from the same general area used for the 2002 nourishment and 2005 repair project, located approximately 4,000 feet offshore of the northern end of Anna Maria Island within the ebb tidal shoal complex of Passage Key Inlet.

The Cortez Groins Removal & Replacement Project also occurred in the first and second years following construction of the 2013 - 2014 beach nourishment projects. The project began in March 2015 and was completed in December 2016 to reconstruct the three (3) Cortez Groins between R-33 and R-36. The project required the demolition of the existing derelict structures and replacement with new permeable adjustable groins to maintain the erosion control function at that section of shoreline.

In July 2020, the USACE began construction of the federal Shore Protection Project (SPP) along the Central Beach shoreline (R-12 to R-33.5) using the Passage Key Inlet ebb shoal as the sand source. This federally authorized Central Beach portion of the project was completed in October 2020. At the request of Manatee County, the USACE included the non-federal Coquina Beach Nourishment segment (R-33.5 to R-41.5) as “Additional Work” in the construction contract. Nourishment of the Coquina Beach segment was completed in November 2020. The USACE deemed the project complete on December 11, 2020, prior to the commencement of the 2021 Coquina Beach Storm Damage Restoration Project.

The 2021 Coquina Beach Storm Damage Restoration Project was constructed by Manatee County between February 25, 2021, and March 16, 2021. The project was designed to replace 74,805 cubic yards (cy) of material lost due to the combined impacts of Hurricane Hermine (September 2016) and Hurricane Irma (September 2017). The project area extended along Coquina Beach from FDEP monuments R-33 to R-41 and utilized sand sourced from the maintenance dredging of Longboat Pass. Approximately 98,300 cy of sand were placed in the project area during construction.

The complete range of services identified in the Scope of Services shall be required in preparation for the fourth periodic renourishment expected on or before 2028, unless storm damages require an earlier renourishment project.

Professional Engineering and Consulting services are needed to assist Manatee County with all aspects of the project for Anna Maria Island and any other coastal or tidally influenced shoreline in Manatee County.

## **1.02 SCOPE**

Successful Proposer (hereinafter in this Scope referred to as ‘Consultant’) shall furnish all equipment, labor, materials, supplies, licensing, transportation, and other components necessary to provide Engineering and Consulting Services for Beach Renourishment that will meet the requirements of the County. The Consultant shall be responsible for providing, at no additional cost to the County, new designs, drawings, specifications, reports and other applicable services if Contractor exceeds the budget for the entire project through completion of the design phase of the project; however, nothing contained herein shall require the Consultant to bear additional costs if the additional costs are a result of a change in the Work Assignment scope of services directed by the County.

The Consultant shall be responsible for the professional quality, technical accuracy, timely completion, compliance with laws, regulations and rules, and the coordination with all appropriate agencies of all designs, drawings, specifications, reports and other Professional Services provided by the Consultant.
