From: Dan Gray, Director, Utilities Department (Mark Simpson for Dan Gray) *MS*
Date: May 26, 2011
Subject: RFP Nos. 11-1569BG - Responses to Questions and Clarification Requests

Please accept the following in response to the questions and clarification requests for RFP 11-1569BG you forwarded.

1. Who are the incumbents contracted for the last Utilities Engineer of Record? **McKim & Creed is the incumbent Utilities Engineer of Record for the Water and Wastewater Programs.**
2. On page 9, the RFP specifically lists ultrafiltration experience. We have many membrane projects in Florida but not necessarily ultrafiltration. Would experience with RO, Nanofiltration, and microfiltration be considered as equitable experience? **Ultrafiltration experience is strongly preferred. Reverse osmosis, nanofiltration and microfiltration experience will be considered for equitability on a case by case basis.**
3. Same page, is the 20 MGD listing for potable water systems supposed to be for ultrafiltration or water plants in general? **The proposer must have experience in a potable water system that produces a minimum of 20 MGD. A 20 MGD ultrafiltration plant is not part of the specification.**
4. Same page, the term "operation" is included along with design and construction of ultrafiltration plants. Are you requiring experience in actually operating the facility or is this referring to assisting operations staff after construction? **Actual operation of an ultrafiltration facility is preferred, but at a minimum the proposer must have experience assisting operations staff after design and construction of an ultrafiltration facility.**
