BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure SWWRF Pond Liner Repairs from Comanco Environmental Corporation without conducting a competitive solicitation process for the following reason(s):

Comanco Environmental Corporation is the vendor that installed the geomembrane liner on SWWRF Lake Filtration and North Pond Improvement project. This vendor is based out of Plant City, Florida and are specialists in geosynthetic liner installation, inspections and repairs. Using this vendor for installations, inspections, and repairs ensures the integrity of the liner remains intact and repairs are performed in a quick and efficient time frame. There is also a warranty on the current liner that would be voided if another vendor worked on the liner.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than June 12, 2024 for evaluation and consideration.
