BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Unitron FVNR Duplex Control Panel and Junction Box from Barney's Pumps without conducting a competitive solicitation process for the following reason(s):

The Utilities Department has standardized the use of the Unitron Control OEM line of control panels. The replacement with other types of panels would require additional modifications to the station design and/or components resulting in a large cost to the County. Using Unitron also reduces the number of spare parts required to be kept in inventory.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than November 6, 2024 for evaluation and consideration.
