### BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure RTU replacement and relocate existing from Rocha Controls without conducting a competitive solicitation process for the following reason(s):

The Water Treatment Plant has a long history with Rocha Controls. Compatibility between Rocha Controls inventory and services and the Water Treatment Plant's SCADA/electrical panels, etc. is essential in keeping normal operations. Most of the RTU panels were built and installed by Rocha Controls, so Rocha Controls is also very familiar with the Water Treatment Plant's equipment and processes, which is beneficial to daily operations.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at [purchasing@mymanatee.org](mailto:purchasing@mymanatee.org) no later than 12/26/24 for evaluation and consideration.
