### BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Rebuilt Compactor Wheel Assemblies from Terra Compactor Wheel Corporation without conducting a competitive solicitation process for the following reason(s):

The Manatee County Public Works Department is currently seeking new wheel assemblies for trash compactors located at the landfill. These compactors are subjected to constant use in a demanding environment, underscoring the critical need for reliable wheel assemblies that can prevent premature failures. The wheels must be able to endure the heavy-duty operations of the landfill while ensuring the compactor's seamless movement for optimal operational efficiency. Terra Compactor Wheel Corporation's robust design exceeds OEM standards, featuring added thickness, plates, and hard surfacing materials to enhance longevity and outperform the competition. With a solid track record that spans over three decades and a wealth of experience in the waste industry, Terra Compactor Wheel Corporation not only offers superior products but also backs them up with exceptional customer service and warranty protection.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at [purchasing@mymanatee.org](mailto:purchasing@mymanatee.org) no later than January 10, 2025 for evaluation and consideration.
