BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Automic Applications Manager Web Services and Automation for Hybrid Cloud from Autom Worx without conducting a competitive solicitation process for the following reason(s):

Automic is a county-wide scheduling and automation software that runs critical daily operations across multiple departments. This yearly maintenance and support software is exclusively available through Autom Worx due to the software's proprietary nature. This support is essential to prevent outages that could impact various county divisions, financial institutions, and elected offices.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than February 18, 2025 for evaluation and consideration.
