BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure 12-A Master Station Pump Replacement from Xylem Water Solutions USA, Inc. without conducting a competitive solicitation process for the following reason(s):

The Manatee County Utilities Department urgently is in need of replacement of the 12-A master station pump at their water reclamation facility (WRF). All three WRFs heavily depend on Flygt pumps for their treatment processes, which are supplied by Xylem Water Solutions USA, Inc., the exclusive distributor of Flygt pumps, parts, and services for the municipal market in Florida. By choosing replacement pumps from Xylem Water Solutions USA, Inc., the County can ensure a smooth and cost-effective process, ultimately saving valuable time and money.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than June 12, 2025 for evaluation and consideration.
