BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure Gritsnail repair parts for slurry cup belt controls from Hydro International without conducting a competitive solicitation process for the following reason(s):

Hydro International's grit systems are installed at Manatee County Water Reclamation Facilities and all parts are standardized among all 3 facilities. The Gritsnail system has specialty parts and adjustments needed for this system to operate correctly or as designed. Any other substitute for parts or service could cause the equipment to fail or cause damage to the current system. This vendor is the proprietary provider of parts, sales, and service to Hydro International grit systems.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than August 12, 2025 for evaluation and consideration.
