Manatee County Code of Laws

BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure ArcGIS Online Premium Feature Data Store M-4 Annual Subscription from Environmental Systems Research Institute, Inc. without conducting a competitive solicitation process for the following reason(s).

Manatee County officially entered into an Enterprise License Agreement with Environmental Systems Research Institute, Inc. (ESRI) on October 9, 2018. This agreement successfully enrolled the County into the esteemed Enterprise Advantage Program, granting access to an array of specialized training options and professional services. Particularly notable is the provision of the standard tier data store, which bolsters the County's ArcGIS Online corporate environment. During the tumultuous seasons of Hurricanes Helene and Milton, Manatee County heavily relied on ESRI software, pushing the standard datastore capabilities to the limit. This highlighted the critical need for an upgrade to prevent similar challenges in future crises. Enhancing the County's ESRI database capability is vital to ensuring preparedness for large-scale natural disasters. It's imperative to acknowledge that ESRI stands as the esteemed owner, manufacturer, and exclusive provider of their software solutions, including the versatile ArcGIS variants.

Any company that believes they can provide this good or service must provide, in writing, convincing technical data sufficient to support their position to the Manatee County Procurement Division at purchasing@mymanatee.org no later than September 25, 2025 for evaluation and consideration.
