BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure exterior silo repainting at the Water Treatment Plant from Southern Corrosion, Inc. without conducting a competitive solicitation process for the following reason(s):

In an effort to restore and prevent further deterioration of the Lime Silo at the Manatee County Water Treatment Plant, the exterior of the silo requires proper subsurface cleaning, and the application of an industrial paint coating is necessary. Southern Corrosion Inc. has provided satisfactory maintenance and coating services to other municipalities for similar tank and piping needs. Manatee County has utilized other painting contractors, but the coatings did not last due to improper preparation.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than November 21, 2025 for evaluation and consideration.
