BACKGROUND/DISCUSSION

The Manatee County Procurement Division has completed a due diligence review and intends to procure 360 Camera Cameleon License & Software Assurance from Blackhawk Enterprises, Inc. without conducting a competitive solicitation process for the following reason(s):

Manatee County's Public Works Department-Traffic Management Division leverages cutting-edge technology to efficiently manage traffic and prioritize residents' safety. Their integration of license and software enhances their capabilities by seamlessly monitoring CCTV cameras and responding swiftly to any traffic incidents. This is critical software for their operations, ensuring the smooth flow of traffic across Manatee County. The Cameleon Software Assurance from 360 Surveillance, Inc., provided through Blackhawk Enterprises, is instrumental in sustaining the Division's services. Blackhawk Enterprises, Inc. is the only distributor for Cameleon products for the State of Florida. This specialized software exemplifies the Division's dedication to delivering safe and effective transportation solutions to the community. Any replacement of this software would not only incur higher costs but also impede the Division's ability to fulfill its commitments effectively.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than March 6, 2026 for evaluation and consideration.
