BACKGROUND/DISCUSSION

The Manatee County Procurement Division has completed a due diligence review and intends to procure Traffic Count Data Collection Devices from Miovision Technologies, Inc. without conducting a competitive solicitation process for the following reason(s):

Public Works currently uses Scout Plus Devices manufactured by Miovision Technologies, Inc. for traffic data collection. Miovision Technologies equipment, software and services are patented in the United States. They are the only distributor of their products and services and provide warranty services and repairs. A change to a different devices would create time delays, increased costs, and additional staff time.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than March 23, 2026 for evaluation and consideration.
