BACKGROUND/DISCUSSION

The Manatee County Procurement Division has completed a due diligence review and intends to procure Roll Crusher System Replacement from Andritz Separation, Inc. without conducting a competitive solicitation process for the following reason(s).

The Utilities Department requires thermal drum drying equipment for biosolids processing. As the exclusive supplier of parts and supplies used at the County's biosolids dryer facility with no authorized dealer network, Andritz Separation, Inc. is the sole source of this equipment and its associated services.

Any company that believes they can provide this good or service must provide, in writing, convincing technical data sufficient to support their position to the Manatee County Procurement Division at purchasing@mymanatee.org no later than March 30, 2026 for evaluation and consideration.
