Addendum #1 (continued)

Q: The request for quotation states that the new vendor will be responsible for maintaining a minimum of 3" of rock and mulch. Will this requirement be met by the current vendor prior to any new agreement effective February 28, 2014?

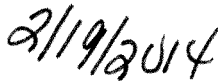

A4: The current vendor shall be responsible for the minimum requirements as stated in the current agreement prior to the final walk through with Manatee County on / or before February 28, 2014.

Q: The vendor shall apply insecticide four times per year – what types? (Reference pages 6, 7, 12, & 13)

A5: See page 12 of the original Request for Quotation:

**A) AUTHORIZATION FOR CHEMICAL MAINTENANCE ACTIVITIES**

- 1) *Prior to the start of any maintenance activities requiring the use of chemical agents such as fertilizers, insecticides, or herbicides, the Vendor shall obtain approval from the CCM for the type, rate of application, method of application, and areas/locations of the proposed application. Because different fertilizers and / or insecticides shall be used at different times of the year based on soil conditions, it shall be the vendors' responsibility to **recommend** the type of fertilizer and / or insecticide to be used at the time of application(s) to the CCM for approval. The CCM will either approve the recommendation, or recommend a different type of fertilizer or insecticide to be used.*
- 2) *The Vendor shall use only licensed personnel as appropriate to perform all chemical maintenance applications.*
- 3) *The Vendor shall be responsible for the proper cleaning of all equipment used and the disposal of all empty and partially used containers, cartons, bottles etc., in compliance with all applicable Federal and Florida regulations.*
