### BACKGROUND/DISCUSSION

The Manatee County Information Technology Department is in need of continued annual Quantum Gold software support for a Quantum i500 tape library and Quantum DXi disk storage array. These two pieces of equipment require extreme technical expertise for configuration and maintenance. Databank Corporation has been familiar with this environment for several years. If a vendor believes this item is not a sole source procurement, Manatee County Purchasing Division requires prospective vendors provide information regarding their ability to supply the commodity or contractual services described prior to the date indicated for "date contract shall be awarded".
