BACKGROUND/DISCUSSION

- ✓ The procurement is for a Seepex pump package and installation services for the clarifier scum ejection system.
- ✓ This is a direct replacement pump. The existing pump located at the Northeast Water Reclamation Facility is limping along. NEWRF maintenance team is monitoring. Pump package includes progressive cavity pump, flange drive, baseplate, dry running protection device, control panels and complete installation.
- ✓ Hudson Pump & Equipment is the sole / exclusive representative for Seepex, Inc. within the state of Florida.
- ✓ The County utilizes this equipment for pumping the scum from the surface of the clarifier to the sludge holding tank. Should the current pump fail the scum will buildup in the clarifier and cause downstream water quality issues causing a violation with the Florida Department of Environmental Protection.
