1.0 Background and Contact Information

The Manatee County Government (County) issues this Invitation to Quote (ITQ) for Repair of the Boardwalks in the Preserves. Companies and/or individuals that are qualified to provide the required goods/services (Bidders) are invited to submit a response (Quote) to this ITQ.

1.01 Background

The Parks and Natural Resources Department has several Boardwalk Preserves Parks in Manatee County.

Emerson Point Preserve; is situated on the West end of Snead island on the North shore of the Manatee river. It offers a network of hiking and kayak trails to experience a wide variety of coastal Florida wildlife and habitats. Ancient and historic remains of it's inhabitants are accessible and well interpreted to give a sense of what life in Manatee County was like prior to and during it's settlement.

Robinson Preserve; is located in northwest Bradenton, in the Palma Sola area. It consists of 487 acres that has undergone an incredible transformation from disturbed farmland to coastal wetland habitat. This complex restoration includes the removal of numerous exotic invasive plant species, to allow native plants to flourish, and the installment of new waterways to help restore the tidal flow within these coastal habitats.

It offers the public outdoor recreational activities such as hiking, biking, and kayak trails.

Leffis Key; this particular island has a prominent hill where one can get a panoramic view of beautiful Sarasota Bay. Site amenities include footpaths that circle and scale the hill, benches, and 1,500 lineal feet of boardwalks that meander through the mangrove forest, with strategically placed viewing platforms penetrating the open water. Interpretive signs describing the various habitats and the respective plant and animal life are located along the paths.
