BACKGROUND/DISCUSSION

Manatee County Procurement Division has completed a due diligence review and intends to procure eight kiosks, seven credit card terminals, seven CMP audit printers, software for PC Management, Print Management for seven building locations and seven point-of sale locations, including software licenses, annual maintenance and support, and installation and training, from TBS without conducting a competitive solicitation process for the following reason(s):

Library Services' existing payment kiosks and payment terminals are at end-of-life stage and are not compatible with newer technology. The County will save \$42,880.00 over a five-year period if the current PC Management and money management system is replaced by TBS.

TBS's suite of library technology services is designed to integrate with the County's existing Polaris system for patron authentication. Other similar proprietary technology from other vendors (e.g., Comprise, Cybrarian Software and Envionware), do not provide the full suite of services provided by TBS.

Any company that believes it can provide this good/service, must submit detailed information about its good/service to the Manatee County Procurement Division at purchasing@mymanatee.org no later than November 14, 2022, for evaluation and consideration.
